Welcome To

South Community

Better health. Better life. Better Community.

We are an innovative, creative, and flexible leader with a continuum of care in behavioral health and primary care for children, adults and families in partnership with schools, healthcare, courts, law enforcement, clients and families in the Dayton area.

Our roots in the community are deep and our partnerships are integral and one of compassionate, forward-thinking care. Our highly skilled and dedicated staff deliver effective treatments and restore HOPE, promote resiliency and improve quality of life.

Integrated Approach to Wellness

We value patient-centered, continuity of care focusing on the extensive needs of our clients, working closely with them as partners in their personal health goals and improved outcomes.

“The therapist and doctors are so loving and caring, they make you feel like it’s personal and not like you’re just a number.”

-Andy Z
